Houston, TX | Willing to Relocate | (713) 448-0107 | duronben@gmail.com | [Portfolio](#)

Education

Bachelor of Business Administration in Cybersecurity

December 2025

University of Texas at San Antonio

Experience

Memorial Hermann (via Insight Global) - Telecom Technician

September 2025-Current

- Deployed and configured Cisco VoIP phones across hospital campuses as part of a system-wide PBX-to-Cisco refresh.
- Ensured connectivity by activating ports, verifying VLAN assignments, and testing call functionality end-to-end.
- Troubleshoot registration failures and network issues; documented completed work and escalations in ServiceNow.

Fort Bend ISD (via Insight Global) - IT Support Contractor

July 2025-September 2025

- Updated and configured iPads district-wide, ensuring current iPadOS, MDM profiles, and certificates on all devices.
- Tracked device inventory and update status in Excel to support asset management ahead of student deployment.

Memorial Hermann (via Insight Global) - IT Support Specialist

June 2025-July 2025

- Supported 200+ hospital employees during SSO implementation using Okta Verify, resolving MFA, password resets, and lockouts.
- Utilized Active Directory, Cisco Jabber, Bomgar, and VMware Horizon to resolve identity and system access issues.
- Managed ServiceNow tickets with thorough documentation; minimized healthcare staff downtime in a high-pressure environment.

Breakpoint Services - Mailroom Assistant Manager

December 2022-June 2025

- Managed mail and package intake using a custom tracking database; maintained records and coordinated daily workflow.

Projects and Labs

Home IT Lab (Ongoing)

- Installed Windows Server 2016 on VirtualBox; configured Active Directory, domain creation, user accounts, and group permissions.
- Joined Windows 10 VM to domain, managed static IPs and network settings, and used RSAT for remote domain management.

Security Labs

- Memory forensics (Volatility), network traffic analysis (Wireshark/NetworkMiner), and attack timeline reconstruction via Windows Event Viewer.

Skills and Relevant Coursework

Technical: Cisco VoIP, Okta, Active Directory, ServiceNow, VirtualBox, VMware, Bomgar, Wireshark, Volatility, Excel

Coursework: Intrusion Detection & Incident Response, Network Security, Information Assurance, Network Technologies, Telecom for Business
